

AMC NETWORKS AND MINI MUSEUM PARTNER TO LAUNCH THE WALKING DEAD MINI MUSEUM, A LIMITED-EDITION COLLECTION OF SCREEN-USED PROPS, COSTUMES, AND SET PIECES, ON MAY 5

April 8, 2026

FAIRFAX, Va., April 8, 2026 /PRNewswire/ -- AMC Networks and Mini Museum announced today an official partnership to introduce *The Walking Dead Mini Museum*, a collection of authenticated materials from the iconic television series. Launching exclusively on Kickstarter Tuesday, May 5, the collection features 32 screen-used elements drawn from props, costumes, and set pieces used in the filming of all 11 seasons of *The Walking Dead*.

Sourced directly from AMC's archives, the collection features materials from some of the most recognizable items in the series, including Negan's barbed-wire baseball bat, "Lucille," Michonne's katana, and Rick Grimes' cowboy boots. This collaboration marks the first time these production-used props have been made available to fans in such a format.

Said Clayton Neuman, VP of Games & Franchise at AMC Networks: "The Walking Dead continues to have a passionate, global fanbase, and our partners at Mini Museum have innovated a wholly unique way for them to bring home not just one, but 32 authentic pieces of their favorite television series. And we can't wait for them to get their hands on it."

Mini Museum is known for creating meticulous collections of artifacts, with more than one million objects distributed to collectors worldwide. *The Walking Dead Mini Museum* represents the company's first officially-licensed collection developed in partnership with a major entertainment brand.

"*The Walking Dead* is a deeply human experience. It's a show that stays with people long after they've watched it," said Jamie Grove, Co-Founder, Mini Museum. "This project continues that experience through a direct, physical connection to the series, and we're immensely proud to be part of it."

Full details of *The Walking Dead Mini Museum* will be revealed on May 5, 2026. This collection will be limited to 5,000 pieces, so supporters are encouraged to follow the Kickstarter campaign in advance.
